Stores 4946, 5010, 5039, 5060, 5125, 8626 & 8627 your deposit total must end in the last 2 digits of your store # and actually include that change. For example store 4946 has \$350 to deposit, the amount in the computer and the bag should be made to be \$350.46. Those stores listed above deposit into shared accounts. This is how we can tell your deposit apart from other stores on our bank statement.

Stores 3123, 3845, 5038, 5085, 8619 & 9457 do not need to do this
